EDUCATION

State Engineer in Computer Science
M'Hamed Bougara University of Boumerdes

Expected Graduation: 09/2029
Boumerdes, Algeria

- **Core Coursework:** Data Structures & Algorithms, Object-Oriented Programming (Java), Operating Systems, Database Systems (SQL), Computer Architecture, Digital Logic.

TECHNICAL SKILLS

- **Programming Languages:** TypeScript, JavaScript (ES6+), Java, Python, C, PowerShell
- **Frameworks & Web:** Next.js 16 (App Router), React 19, Node.js, Tailwind CSS v4, HTML5/CSS3, Framer Motion, shadcn/ui
- **Mobile & Databases:** Android Studio, Android SDK, MySQL, SQL, SQLite
- **Core & AI:** Data Structures & Algorithms, System Architecture, Generative AI Integration, OOP
- **Tools & Automation:** Git, GitHub, esbuild, Puppeteer, REST APIs, JSON pipelines

COMMERCIAL EXPERIENCE

Freelance Software & Web Developer
Independent Client Projects

2025 – Present
Remote

- **Rouibeh Medical Center:** Architected a responsive web application and embeddable UI widget system using Next.js 16, React 19, and TypeScript. Implemented 60fps 3D carousels via Framer Motion and configured custom esbuild pipelines to bundle standalone micro-frontend React components.
- **Groupe Médical EL-HAYAT (el-hayat.com):** Built a production web platform featuring dynamic search engines for medical tests. Engineered automated data pipelines using Node.js, Python, and PowerShell to parse JSON datasets and synchronize clinical PDF assets, ensuring high-speed vanilla DOM performance.
- **Restaurant La OSTRAL:** Designed a luxury, mobile-first web interface utilizing semantic HTML5, modern JavaScript, and Tailwind CSS. Integrated dynamic glassmorphism aesthetics, embedded media APIs, and Google Maps workflows optimized for rapid asset loading and SEO visibility.

ENGINEERING PROJECTS

Bac AI – AI-Powered Learning Platform

React, JavaScript, LLM APIs

- Architected an interactive study platform concept for high-school curriculum review, optimizing front-end components to maintain responsive rendering across desktop and mobile environments.
- Designed AI-driven feature workflows for personalized quiz modules, subject content routing, and user progress tracking.

Gym Wolf – Native Android Fitness Application

Java, Android Studio, SQLite

- Built a full-featured workout tracking Android app in Java utilizing Material Design guidelines.
- Engineered an offline-first data persistence architecture to log training metrics, visualize volume progression, and retrieve session histories with sub-second latency.

Solo Solution – Automotive Logistics App

JavaScript, HTML/CSS, Google Sheets API

- Built a web-based product and delivery workflow solution for an Algerian automotive spare-parts business.
- Integrated a lightweight data-management backend utilizing the Google Sheets API to synchronize inventory and orders, replacing manual lookup processes.

CERTIFICATIONS & LANGUAGES

- **Google AI Professional Certificate (Aug 2026):** 8-course credential encompassing AI Fundamentals, AI for Brainstorming and Planning, AI for Research and Insights, AI for Writing and Communicating, AI for Content Creation, AI for Data Analysis, AI for App Building, and AI for App Deployment.
- **EF SET English Certificate:** B2 Upper Intermediate
- **Languages:** Native Arabic, Fluent English, Intermediate French
